Talks on the Results of the Recent Elec Indianapolis, Ind., Nov. 9.-Ex-President Harrison talked freely to a United Press reporter last evening upon the result of yesterday's election "I find not only gratification and comfort, but downright rejoicing in the handsome result," said he. "The republican triumph was so sweeping and so general that the notion that local causes might have figured largely in the result is hardly tenable. Every thing went republican—that is, every try, showing very clearly that general causes were at work. The result demonstrates that the faith of the people in the American industrial sys-tem was not lost, but only weakened, and has been renewed with redonbled strength. The chief cause was undoubtedly the general industrial depression. The people have had pre-sented to them a sharp comparison between the two systems. They have en brought, within a year, from a condition of the highest prosperity to what we have now presented to us on all sides, not by the operation of a dif-

and demanded an apology. The government
